

To Our Valued Patients:

While our patient satisfaction surveys reflect convenient patient access, Southern Brain & Spine is pleased to announce that we are again expanding our footprint in the Greater New Orleans area! As a direct result of your feedback and in an effort to better serve you, we will be opening new offices in New Orleans, Metairie, and Kenner in addition to our current offices in Covington and Laplace. Our new offices will provide you a variety of locations for easier access to care - and improved parking.

As we grow our offices to better serve you, we are also establishing new hospital relationships in Kenner, Metairie, and New Orleans. We are proud of these new associations with financially sound hospitals who share our commitment and dedication to the highest quality of medical care and who prioritize the health and wellness of the patient. We are delighted to move forward with partners who value the exceptional care for which our experienced and respected physicians are known. We look forward to updating you with the contact information for our new locations. In the meantime, you can still reach us at 504-454-0141 Ext.1 or www.sbsdocs.net. We will continue to provide services to patients with private insurance, Medicare, workers' compensation and legal representation.

Southern Brain & Spine is growing with those most important to us – our patients. As is typical with transition, there may be some inconveniences, but as we move forward, our services to the communities of Jefferson, Orleans, the North Shore and the Gulf South region will grow and you can trust our dedication to your neurosurgical needs.

We endeavor to fulfill our mission of offering you timely access to quality, comprehensive, cutting edge neurosurgical care, in a caring, personalized setting.
